

# Chemilizer™

Chemical Injectors

# WATER TREATMENT HN55 & CP33

## The HN55 Proportional

For water flow rates from  
1GPH-780GPH

## The CP33 Adjustable

For water flow rates from  
12GPM-UNLIMITED

- The perfect replacement for electric injectors
- Cost effective alternative for water facilities in the very small, small and medium categories.
- Safer alternative to gas chlorination.

The CP33 and HN55 are tested and certified by WQA for materials safety according to NSF/ANSI 61.

# Chemilizer™

We Inject Solutions

**All Chemilizer injectors feature a unique diaphragm design water motor and an interchangeable positive displacement chemical pump.**

## Water Motor

The water motor functions on demand with water flow. No harsh chemicals pass through the motor.

## Chemical Pump

Chemilizer's five part chemical pump has just one moving part making maintenance simple and replacement inexpensive.

## Injection Control Panel

The CP33 features a face mounted Injection Control Panel for easily setting and adjusting the rate of injection.

- **Easy to Install**
  - No pre-filtration required
  - Installs easily into your existing water line
  - Water driven motor, no electricity required

- **Easy to Maintain**
  - Simple diaphragm design, no piston to wear out or replace in the water motor
  - No harsh chemicals pass through the water motor

- **Reduced ongoing cost**
  - No electricity
  - Accurately meters chemicals
  - Minimal maintenance required
  - Direct factory support if needed
  - No safety regulations to satisfy or additional personnel to support

- **Better management**
  - Superior, more consistent accuracy
  - Immune to power failure or power surge

- **Flexible installation**
  - Requires no electrical connection
  - Compact and lightweight
  - Mounts to any surface, mounting brackets included
  - Installs with commonly available PVC fittings
    - **HN55** - Gravity feed operating capabilities
    - **CP33** - Attaches easily to any size water line

- **Versatile**
  - Cost effective for both residential and commercial applications
  - Easily injects most water soluble chemicals
    - **HN55** - Fixed injection ratios, demand side
    - **CP33** - Adjustable injection ratios, supply side
