Spiral–Wound Activated Carbon Cartridges

Model: BBC-150-AC

Big Bubba® spiral-wound activated carbon cartridges are excellent for the simultaneous removal of tastes and odors while providing particulate filtration and dirt holding capacity of a 5 micron sediment filter.

Features

• High chlorine, taste and odor reduction
• Efficient sediment filter with large dirt holding capacity
• No release of carbon fines
• No channeling
• No bypass
• FDA-compliant materials

Specifications

| Micron Rating | 5 |
| Flow Rate     | 12 gpm (max.) |
| Capacity      | 200,000 gallons* |
| Percent Reduction | 90%* |
| Pressure Drop at 12 gpm | 2 psi |
| Weight        | 10 lbs. |

*1 ppm chlorine at 12 gpm.

Warning do not use on a water supply that is microbiologically unsafe or of unknown quality without proper disinfection before or after the filter.
